---

#### For your prayers.

Please remember in your prayers Joan Wilson. She has a problem of a swollen leg, painful and making walking very difficult and currently having tests in hospital. Frances is in contact and keeping us informed and will let us know if there is any way we can help.

Pray also for Frances who has problems with her leg and her shoulder. She doesn't complain but is concerned these problems are not getting resolved.

For Margaret. Settling down better at Oakcroft Care Home but unable to see much of family and friends. Restrictions means that although visits can be arranged meeting is only possible in the care home garden.

For Sarah and all her family, including children at college who are living in South Africa. Covid-19 restrictions mean she has been unable to visit them. I have contacted her but am waiting for news.

---

Have just returned from a Holy Communion service at Weybridge. Restrictions imposed but carefully and safely organised. Good to be back at a church service after so long, but possibly their only one while Elmbridge Borough new restrictions remain in force.
